

Vishnu Palakonda

Aspiring Data Scientist | Python | SQL | Machine Learning | Statistics

778-044-1516 | palakondavishnu42@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Information Technology undergraduate with hands-on experience in Python, SQL, PostgreSQL, statistics, and data analysis. Skilled in data cleaning, exploratory data analysis, hypothesis testing, correlation analysis, anomaly detection, and data visualization. Built data-driven projects in statistical analysis, employee salary analytics, and HR analytics. Currently developing expertise in machine learning and predictive modeling, seeking an entry-level Data Scientist or Data Analyst opportunity.

EDUCATION

QIS College of Engineering and Technology <i>B.Tech in Information Technology — CGPA: 7.2/10</i>	Ongole, Andhra Pradesh, India 2024 – 2028
Sri Saraswathi Junior College <i>M.P.C (Mathematics, Physics, Chemistry) — 846/1000</i>	Ongole, Andhra Pradesh, India 2022 – 2024
Zilla Parishad High School (Z.P.H.S) <i>Secondary School Education – English Medium — 375/600</i>	Talluru, Andhra Pradesh, India 2022

PROJECTS

StatGuard – Statistical Risk & Anomaly Detection Platform <i>Python, Pandas, NumPy, PostgreSQL</i>	2026
– Analyzed a relational dataset containing 1,000 customers, 100 products, 50,000 transactions, and 96,272 transaction items – Applied hypothesis testing, confidence intervals, correlation analysis, and anomaly detection to identify high-risk days and unusual revenue patterns	
Employee Salary Intelligence <i>Python, Pandas, Data Analysis, Machine Learning</i>	2026
– Developed an employee salary analytics application for salary distribution and predictive analysis – Built analytical views for salary patterns and model performance using Python-based data processing and visualization	
Employee Database Analytics <i>SQL, PostgreSQL, Power BI</i>	2026
– Analyzed employee, salary, performance, attendance, hiring, and departmental data across 500 employees – Developed an HR analytics dashboard covering payroll, salary distribution, performance, hiring trends, and workforce patterns	

SKILLS

Technical Skills: Python, SQL, Pandas, NumPy, PostgreSQL, Statistics, EDA, Data Cleaning, Data Visualization, Power BI, Excel, Scikit-learn, Machine Learning, Git, GitHub, FastAPI

Additional Skills: Problem Solving, Analytical Thinking, Data Interpretation, Communication, Team Collaboration, Time Management

Languages: English, Telugu

CERTIFICATIONS & LICENSES

Applied Data Science with Python : IBM SkillsBuild — July 2026

Data Analysis with Python : IBM SkillsBuild — July 2026

Data Science Job Simulation : British Airways / Forage — June 2026

Data Analytics Job Simulation : Deloitte / Forage — June 2026

PostgreSQL Developer : Infosys Springboard — May 2026
